December 31, 2015

Dear Colleagues,

New Year is the time to bring from the past all that is right and good, to give to the future the best we have to offer. A new academic year brings forth new challenges and new opportunities. However, "newness" alone cannot bring transformation. We must be willing to embrace change and trust that our action and deeds will be instrumental in contributing to the relentless pursuit of excellence in academics at all levels.

We believe that each child is unique and gifted and his/her capacity to learn and create is infinite. Our aim should be to exploit their energy and potential so as to prepare them as real human beings. We should be able to develop in them moral values without which the whole effort of making a doctor or an engineer or architect will go waste.

In our classrooms, despite NCF 2005 documents, the teacher domination continues. This is high time for Teachers to guide our children "How to learn" rather than "How to teach". The concept of "Learning to learn" will ensure effective & meaningful education. We must not only provide the world class infrastructure but also ensure the attitudinal change of the youth to make personal efforts with vigour to learn independently and practice regularly. It should be our endeavor to ensure that the Grades acquired by the Children in different classes commensurate with the desired competency.

In addition to the core emphasis of KVS as specified above, giving shape to the vision of our Hon'ble Prime Minister should be the focus in this New Year. Specifically all KVs are required to pay attention and take up required action in the following areas:

**(A) Swachhata Abhiyan.**

The concept of Swachhata Abhiyan is already planted in the minds of stakeholders of Kendriya Vidyalaya Sangathan with the motivation and inspiration from Hon'ble Prime Minister of India . But the only issue is to execute the "Swachhata Abhiyan" Programme in all Schools with tangible outcomes.

It is requested to ensure implementation of "Swachhata Abhiyan" in mission mode with periodical monitoring. Let all our Kendriya Vidyalayas achieve Clean Toilets, Green Campus & Potable Drinking water as a part of Swachhata Abhiyan".

A periodical review may be conducted at Regional Office Level to ensure the successful execution of the project.

**(B) Skill India**

No doubt the children at present are promoted to higher classes with attractive grades, but they need better skills of communication, critical thinking and problem solving. This area needs immediate attention.

The promotion of Vocational education needs further push in schools. At present the scenario of vocational education is not encouraging. It is high time, we think seriously to introduce some Vocational Streams in our system, so that the young generation will be engaged meaningfully in Nation building.

**(C) Digital India**

In tune with the present times, utilizing the digital resources for the better functioning of the organization and improved benefits to the stakeholders, KVS has launched "KV Shaala Darpan" as part of the Digital India initiative. Let us all join our hands in making this initiative successful so that there is increased interaction amongst the stakeholders leading thereby to an improved performance in the organization. Therefore, your sincere and prompt action in the implementation of this project is vital in making this successful.

KVS has been able to flourish because of the dedicated and sincere team of KVS Officers, Principals, Teachers and Non-teaching staff. I trust that the satisfaction and happiness achieved by shaping future of Nation is a matter of rejoice for the whole KVS family. Let us all join hands together to move forward in the direction of providing world class infrastructure and an environment conducive to learning.

My heartiest greetings to all the Students, Teachers, Principals, Officers and Non-Teaching Staff of KVS.

**Happy New Year 2016!**

**(U.N. Khaware)**

**Additional Commissioner (Acad.)**

**Distribution:**
